

want:
CLEAN, PROPERLY PREPPED TEATS
need:
BEE-LINE PREP

A unique, patent pending, non-iodine udder hygiene product that provides fast, effective prepping before milking.

PROMOTES UDDER HYGIENE

- Excellent detergency provides quick, thorough prepping
- Gentle on skin
- Delivers 4% emollients and .5% lactic acid—ingredients known to promote healthy skin

VERSATILE, COST EFFECTIVE

- Contains no iodine or quaternary ammonium compounds
- Low viscosity for easy spraying
- Apply to teats as dip, spray or using other common methods currently in use
- Convenient, ready-to-use formula
