

CHEM-STAR™

Io-Soft 1010™

PRODUCT DESCRIPTION

Io-Soft 1010™ is a 10,000 ppm iodophor teat dip that contains a wetting agent, and 10% emollient system to help ensure adequate coverage and maximum germicidal activity.

BENEFITS

Promotes Udder Health and Hygiene

- Contains 1% titratable iodine, providing visual proof of coverage from the slightly amber-colored film on the teat.
- A 10% emollient system helps keep the teat smooth, soft and pliable.
- Equally effective against both infectious mastitis organisms and environmental types, such as *Escherichia coli*.
- Passes AOAC Germicidal and Detergent Sanitizer Test with a greater than 99.999% reduction of *Staphylococcus aureus* and *Escherichia coli* organisms.
- Non-irritating formula aids teat conditioning; gentle on teats and hands.
- Wetting agent allows product to cling to the teat.

Versatile - Cost Effective

- All-season formula provides year-round protection - one product does it all.
- Special emollients provide excellent teat conditioning, reducing the need for teat salves or creams.

Io-Soft 1010™

PROPERTIES

Formliquid
Color dark brown
Odor mild
Specific gravity 1.051
Pounds per Gallon 8.75 (3.97 kg)
Formula ingredients contain no phosphorus.

ACTIVE INGREDIENT:

Iodine 1%

Contains nonylphenoxypolyethoxyethanol-iodine complex, providing 10,000 ppm min. titratable iodine.

(CONTAINS A 10% EMOLLIENT SYSTEM)

USE

DIRECTIONS FOR TEAT DIPPING

IMPORTANT: Do not mix *Io-Soft 1010™* with any other teat dip or other products. If transferred from this container to any other, make sure that other container is thoroughly pre-cleaned and bears the proper container labeling for *Io-Soft 1010™*.

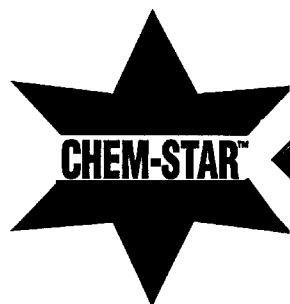

Use a post-milking teat dip on each teat as an aid in a complete cow-care program to help reduce the spread of organisms which ay cause mastitis.

Immediately after milking, use *Io-Soft 1010™* at full strength. Submerge entire teat in *Io-Soft 1010™* solution. Allow to air dry. Do not wipe. Always use fresh, full strength *Io-Soft 1010™*. If product in dip cup becomes visibly dirty, discard contents and replenish with undiluted product. Do not reuse or return used product to the original container. Do not turn cows out in freezing weather until *Io-Soft 1010™* is completely dry.

Wash entire udder and teats thoroughly just prior to next milking with appropriate udder wash product solution to avoid contamination of milk. Use proper procedures for udder washing.

NOTE: *Io-Soft 1010™* is not intended to cure or help the healing of chapped or irritated teats. In case of teat irritation or chapping, have the condition examined and, if necessary, treated by a veterinarian.

For cautionary and first aid information, consult the Material Safety Data Sheet (MSDS) or product label.
