

# SENSODINE™

## Sanitizing Teat Dip Concentrate

### PRODUCT DESCRIPTION

When diluted, *Sensodine™* is a 5,000 ppm iodophor teat dip that contains a wetting agent and emollient to help ensure adequate coverage and maximum germicidal activity against mastitis causing organisms.

### PROPERTIES

Form..... liquid  
Color .....brown  
Odor .....mild  
Specific gravity at 68°F ..... 1.136  
Pounds per gallon ..... 9.46 (4.29 kg)  
Formula ingredients contain no phosphorus.

#### Active Ingredient

Titrateable iodine..... 4.5%

Inert ingredients including emollients and humectants\* ..... 95.5%

\*PEG 75 Lanolin and Glycerin

NOTE: *Sensodine™* concentrate must be diluted before use.

NOTE: Do not mix with anything but cool potable water.

NOTE: Use blended *Sensodine™* product within on (1) year of blending date.

Consult your *Chem-Star™* representative for specific use instructions and recommended dispensing equipment.

For cautionary and first aid information, consult the Material Safety Data Sheet (MSDS) or product label.

### TO USE

#### Dilution Parameter

A dilute solution of 0.5% iodine teat dip will consist of 90% potable water and 10% *Sensodine™* concentrate by volume.

**Application of Diluted *Sensodine™* Concentrate.** Can be used as a pre-dip or post dip application.

**PRE-MILKING:** Heavily soiled udder and teats should be washed before using a pre-milking teat dip.

Fore-strip teats, then dip each teat full length with diluted teat dip solution. Wipe teats dry after dipping using single-service towels to avoid contamination of milk.

**POST-MILKING:** Immediately after each milking, dip each teat full length into the diluted teat dip solution. Allow to air dry. Do not wipe dry. The dip cup solution should be discarded if it becomes visibly dirty. Do not return any unused solution to original stock container. Do not turn cows out in freezing weather until teat dip is dry.

NOTE: *Sensodine™* Concentrate requires a *Chem-Star™* / Dispenser for proper dilution.

**PRECAUTION:** As with any germicide, irritation or sensitization may occur in sensitive animals. If irritation occurs, discontinue use; consult your veterinarian if irritation persists.

**IMPORTANT:** Do not mix *Sensodine™* Concentrate or diluted *Sensodine™* ready-to-use teat dip solution with any other teat spray, dip or other products. When mixing from this container to any other, make sure the other container is thoroughly pre-cleaned and bears the proper container labeling.
