

# UDDER COMFORT

**Udder Comfort** includes a natural blend of essential oils that softens and soothes hard quarters and tender udders after calving, for quality udders making quality milk.

Udder Comfort White Lotion	Udder Comfort Blue Lotion	Udder Comfort Blue Sprayable & Yellow Spray	Udder Comfort Blue Sprayable & Yellow Spray Refill Jug
			
10.1 US fl. oz.	10.1 US fl. oz.	17 US fl. oz.	135 US fl. oz.

**UDDER COMFORT LOTION** comes in a handy bottle to hang from your milking line. Available in white lotion, which dries clear, and blue lotion that remains blue from one milking to the next, taking the guesswork out of follow-up applications.

**Application:** Apply lotion to the entire quarter for 6-10 consecutive milkings. Massage 10-20 ml per quarter depending on the size of the udder.

**UDDER COMFORT BLUE SPRAYABLE** provides the natural benefits of the lotion with the added convenience of a spray. The blue color remains visible from one milking to the next.

**Application:** Spray the entire quarter or udder for 6-10 consecutive milkings. Apply 6-10 pulls per quarter depending on the size of the udder.

**NEW UDDER COMFORT YELLOW SPRAY**, with natural turmeric colour. Designed for use in organic production, this yellow spray is also popular in breeder herds and for show cattle as the spray goes on yellow to see the coverage and then vanishes. Call for an ingredient list to bring your organic certifier.

**Application:** Same as Blue Sprayable.

\*\*\* Gallon jugs available for Blue Sprayable and Yellow Spray to refill bottles.  
Each gallon jug contains the equivalent of 8 spray bottles.
