

# CHORE MATE™

---

# SHINE-PRO™

---

## PRODUCT DESCRIPTION

SHINE-PRO™ is a liquid self-foaming acid detergent suitable for manual and foam cleaning applications.

---

## BENEFITS

### Promotes Quality Assurance

- Complete rinsability leaves equipment free of film.
- Non-corrosive to stainless steel at recommended use concentrations.
- Wetting agent blend provides complete soil penetration and film-free rinsing.

### Saves Labor and Time

- Saves time — one step detergent requires no additional wetting agents for foaming.
- High acid level helps assure rapid mineral soil removal.

### Helps Reduce Cleaning Costs

- Concentrated formula provides maximum cost effectiveness.
- High foaming surfactants provide excellent foam generation without costly additives.
- Non-corrosive formulation helps protect equipment investment.

## PROPERTIES

Form . . . . .	liquid	Pounds per gallon . . . . .	10.56 (4.79 kg)
Odor . . . . .	none	Specific Gravity at 68° F. . . . .	1.268
Foam . . . . .	high, stable	pH (1.0% solution) . . . . .	1.7
		Acidity (as phosphoric acid) . . . . .	41.3%

Formula ingredients contain not more than 14.3% phosphorus, 21.5 grams per gallon of average recommended use concentration.

For cautionary and first aid information, consult the Material Safety Data Sheet (MSDS) or product label.

---

## USE

### FOAM CLEANING:

1. Prepare equipment for cleaning and pre-rinse to remove all loose soil.
2. Foam all equipment surfaces with SHINE-PRO at a concentration of 3 to 5 oz. per gallon of water (23.4-39.1 mL/L) depending on soil load. Allow foam to soak 5 to 15 minutes. Do not allow to dry.
3. Rinse thoroughly with potable water.

Consult your Chore-Mate Representative for specific use instructions and recommended dispensing equipment.
