

Acid-300

PRODUCT DESCRIPTION

Acid-300 is a non-foaming, dual-blend acid cleaner developed for circulation cleaning of food processing and milking equipment, such as tanks, vats and transfer lines.

BENEFITS

Saves Money

- ▲ Economical to use - only 1 oz. to 35-45 gallons for acidified rinse.

Promotes Quality Assurance

- ▲ Contains phosphoric acid to promote effective removal of milk stone and mineral soils
- ▲ Works in most water hardness conditions
- ▲ New non-foaming formulation promotes free-rinsing

Convenient and Safer to Use

- ▲ Concentrate - less space needed for storage and less disposal of packaging

| PROPERTIES | Form | Liquid | pH 1% solution | 0.8 |
| | Color | Clear, bright pink | Acidity as phosphoric acid..... | 42.0% |
| | Odor | Mild, acidic | | |
| | Foam | None | | |
| | Spec. Grav. @ 68°F (20°C) | 1.295 | | |
| | Pounds per gallon..... | 10.79 (4.89 kg) | | |

Formula ingredients contain not more than 8.7% Phosphorus, 0.07 g/L, (0.25 g/ US gal) of recommended use concentration.

DIRECTIONS FOR USE

FOR PIPELINES AND CIP BULK TANK WASHERS

Acid Rinse: After the detergent wash, circulate a solution of 1 ounce (30 mL) of Acid-300 per 35-45 gallons (130-170 L), of water (pH 3.0-3.5 for best results) for 5 minutes. Drain. Sanitize before milking.

Acid Wash: If acid rinse is not done regularly, then once a week or when needed, circulate a solution of 2 ounces (60 mL) of Acid-300 per 15 gallons (56.8 L) of hot water (160°-170°F/70°-77°C) for 6-10 minutes. Drain and rinse with fresh water. Avoid food contamination during application and storage. Rinse surfaces thoroughly with potable water after use.

Consult your A&L Laboratories Representative for specific use instructions and recommended dispensing equipment.

For cautionary and first aid information, consult the Safety Data Sheet (SDS) or product label.

STATEMENT OF ASSURANCE

This product is effective under the intended conditions of use as outlined on the product label or specified in a Sanitation Standard Operating Procedure (SSOP). This product will not adulterate food product provided that before using it, food products and packaging materials are removed from the room or carefully protected and after using these compounds, surfaces are thoroughly rinsed with potable water.

A Letter of Guaranty as indicated in USDA's Sanitation Performance Guideline is available from your Ecolab representative.

Acid-300 is registered for use in federally-inspected food establishments in Canada provided it is in keeping with the instructions outlined on the label.

ECOLAB SUSTAINABILITY POLICY

We have a commitment to our customers to provide effective programs that help protect the health and safety of their customers and employees. We will sell products or services that maximize performance, limit total environmental impact, and are safe as our customers commonly use them. We will inform our customers of the environmental impacts of our products or services, and of their correct use.
