

The solution in environmental disinfection.

PureVista is the most comprehensive and cost effective deodorizer and disinfectant tool on the market, treating air, surfaces and HVAC ducting.

Environmental contamination of buildings can lead to significant problems. Industrial and commercial organizations of all sizes are utilizing PureLine's unique and extensive line of chlorine dioxide (ClO₂) products and services to eliminate odors, bacteria, mold, and other microorganisms.

- PureVista is a portable water activated ClO₂ gas generation technology.
- Allows you to efficiently generate ClO₂ gas on-site and on-demand.
- Perfect for routine or emergency disinfection.
- A better means of disinfecting than wiping, spraying or fogging.
- If air can reach a surface, the ClO₂ gas can reach it and do its job.
- Inexpensive, efficient and can be scaled to any size application.

The ClO₂GO₂

Advantages

- Portable, and easy to use
- No capital investment
- Eliminates all bacteria, mold, and other organisms
- No residue or post treatment clean up
- Non-corrosive at generated levels

Targeted Applications

- Restaurants
- Cars and Buses
- Homes and Offices
- Schools and Classrooms
- Fitness facilities
- Locker rooms
- Hotel rooms
- Conference rooms
- Airplanes and Boats

Common Microorganisms

- Mold
- Mildew
- Bacteria

Validation / Quality Monitoring

VALIDATION (Three-pronged approach)

- Pre/Post ATP swabs are taken to determine bioload reduction.
- 6-log biological indicators are used to confirm PureLine's guaranteed 6-log kill.
- Pre/Post swabbing is done to identify the aerobic plate count reduction.
- All validation tests are sent to a third party lab for independent verification of a successful treatment. The results will be included in the customer's post-treatment report.

QUALITY MONITORING

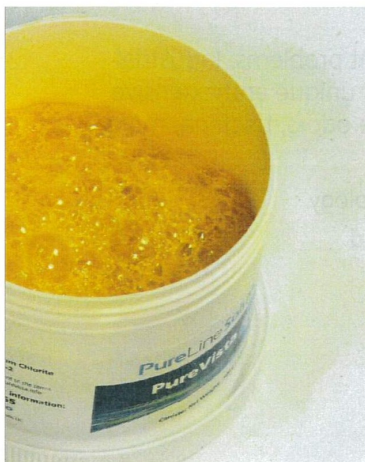

Real-time concentration monitoring is recorded throughout the treatment area to ensure equal gas distribution and target concentrations are achieved.

About Chlorine Dioxide (ClO₂)

Chlorine dioxide works by penetrating the cell wall of microorganisms and disrupting the metabolic functions, thus immediately and permanently eliminating the problem at its source.

PureLine's chlorine dioxide products and services are all EPA registered. Chlorine dioxide is also an approved sanitizer by the FDA and USDA.

Get a free, personalized sanitation consultation.

PureLine offers a complete line of chlorine dioxide products, solutions and accessories.
