Improving every farm we touch

**ARE YOU LOOKING FOR A FAST,
SAFE, AND CLEAN MILKING?
WE HAVE THE RIGHT LINER
FOR YOU.**

**ARE YOU STRUGGLING WITH
LABOR, COST, AND THE EFFORTS
TO CHANGE YOUR LINERS?
WE HAVE THE RIGHT RANGE
OF SERVICES FOR YOU.**

A new, amazing silicone liner has just entered the MI Product range and Farm services offering: **IPS-8 NC**.

IPS-8 NC provides faster milking and better teat health to your herd, it really marks another milestone in the MI technology offering for farmers. Its extraordinary design and new material provide:

- ◆ **Durability and extended life, means you save time as you change liners less often**
- ◆ **Cow's comfort and speed of milking: IPS-8 NC does not compromise**
- ◆ **Better teat health and higher quality milk, thanks to the vented mouthpiece and triangle design**
- ◆ **Extended life, means less refuse impacting the environment**

And yes, IPS-8 NC can help you reduce the effort it takes to change liners. How? They are available through our Farm Services with 2 different options:

Both services are based on scheduled deliveries of Liners and/or Clusters, helping you to save on labor and time. And that's not all!

- ◆ **Save time and money:** we will take care of the changes, giving you more time to do other important tasks
- ◆ **Peace of mind** knowing that your liners are always changed on time
- ◆ **Improved and faster milking, better teat health** thanks to our new IPS-8 NC liners
- ◆ **Choose LES (Liner Exchange Service) or full CES (Cluster Exchange Service)** and reduce the burden of maintaining your liners, shells and claws.

Program outline for the services:

Program Outline	1st	2nd	3rd	4th	5th	6th	7th
CES							
LES							

IPS-8 NC: ✓ Fast ✓ Clean ✓ Safe
